

NEW

Live tools with Coromant Capto® clamping system C3 / C4 / C5

Compact design

Dimensions e.g. axial design

Coromant Capto®	D	L ₁
C3	VDI30	52
C4	VDI40	60
C5	VDI50	70

Clamping system also for comparable axial and radial BMT tools possible.

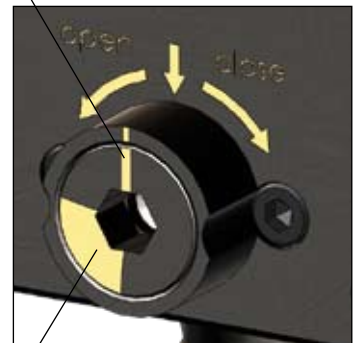

Easy handling

- Optically visible clamping position
- Clamp position from 80°
- Starting torque: 48 Nm
- Process reliability due to lock function

Technology at its highest level

- Coromant Capto® clamping system as per ISO-Norm 26623
- Higher clamping force as in the requirements per ISO-Norm 26623
E.g.: C4 = 30 kN
